Price:

Free

Looking for 15 homes to showcase the latest solar technology on rooftops and be paid state and federal incentives to produce renewable energy. Each home selected will have new solar technology installed with zero upfront cost or fees. This will eliminate (or greatly reduce) your current electric bill and replace it with an equal of lesser monthly solar investment.. You must be a homeowner with good credit and relatively shade free roof or land, and have a utility bill of \$100+ per month. Private Message or comment below for consideration.
